10. Approximately how many New Zealanders have downloaded the NZ COVID Tracer app to date?

[Over 2.3 million](#)

11. What privacy-loving marsupial has been credited with being accidental heroes for saving the lives of other Australian animals in the devastating bushfires last summer?

[The wombat](#)

12. What is the name of the contact tracing solution promoted by the entrepreneur Sam Morgan?

[CovidCard](#)

13. Can a business use the information in their Covid-19 contact tracing register to add to their mailing list?

No. The Privacy Act says information obtained for one purpose should not be used for any other reason ([principle 10](#)). The guest register should only be used for the public health reasons specified by the Ministry of Health.

14. What's the maximum fine that a business or organisation can face for the new criminal offences introduced in the Privacy Act 2020?

[\\$10,000](#)

15. The Privacy Act 2020 contains more, fewer, or the same number of privacy principles than the 1993 Act?

This bit of a trick question. The answer is fewer. Although the information privacy principles have increased from 12 to 13, the [four public register privacy principles](#) have been repealed!
